Box 146300
Salt Lake City, UT 84114-6300

Subject: Water Year 2013 Administration of Central Utah Project, Bonneville Unit, Utah Lake / Provo River Storage Exchanges under CUP Water Right Nos. A40523, A36639, A37093, E398, E4319 and Central Utah Water Conservancy District Water Right Nos. E3100 and E3101

Dear Teresa:

Currently the elevation of Utah Lake is 4487.97 feet, or 1.10 feet below the compromise elevation. Therefore, Utah Lake is still below the Utah Lake Distribution Plan conversion line. It is possible that Utah Lake may cross the conversion line however if dry conditions continue to persist it is not certain.

We request that the conversion line be lowered using E4319, E3100 and E3101 as provided for in the Utah Lake Distribution Plan. We also request that you convert all CUP system storage in Deer Creek and Jordanelle reservoirs to priority storage once the conversion line has been lowered.

Please contact me if you have any questions.

Sincerely yours,

Jared D. Hansen, P.E.
Project Manager – Water Rights
